

HEALTH AND SAFETY POLICY STATEMENT

Crucible Gypsum Recycling Ltd recognises that how we manage our business has an impact on the Occupational Health & Safety of our employees, people working for us or on our behalf and the public. We will safeguard the Health and Safety of our employees, contractors and/or other people working on our behalf.

Compliance with legal and other requirements

Crucible Gypsum Recycling Ltd will comply with and wherever possible exceed legislative requirements at all stages of our business activities and operations.

Continual Improvement

Crucible Gypsum Recycling Ltd will, in order to enhance health and safety:

- Strive to eliminate injury and ill health and promote a positive health & safety culture through engagement and empowerment.
- Use suppliers and contractors who have standards compatible with our own and ensure they are fully aware of the standards and behaviours expected of them.
- Ensure all employees & contractors are suitably trained for their roles and responsibilities & can demonstrate on-going competence.
- Continually reassess all of the above in the light of changing technology, legislation & best practice.
- Adequate financial & operational resources are made available for sustaining our Health & Safety Standards.
- Risk assessments are provided and understood along with safe systems of work.

- The place of work under our control is maintained in a safe condition, preventing and eliminating risk to employees, contractors and people working on our behalf.
- The working environment is provided and maintained so that it is safe, without risk to health with adequate facilities for welfare of employees.

Success of this policy relies on the full cooperation of all employees.

Crucible Gypsum Recycling Ltd will periodically review this policy to ensure it continues to meet the needs and aims of the business.

Richard Buxton
